

Lesson Description

Introduction for pupils to consider how to collect data to tackle any interesting real world problems we have.

Pupils will learn about how to define a data problem and how to collect some data to begin exploring their problem.

Materials needed:
Lesson Pack, pens, paper, computer

Lesson Plan

Time	Task
10 min	Learn about what data is
10 min	Learn about your data challenge
5 min	Discuss with your class
5 min	Think about how you'll collect data
10 min	Collect your data
5 min	What will we do next?
