

## Lesson Description

Learn how to creatively present the data you collected in the previous lesson

Pupils will come up with ideas about how to present the data they collected, and will create their own data visualisations to present to the class.

Materials needed:  
Lesson Pack, pens, paper, computer

## Lesson Plan

Time	Task
5 min	Recap your data collection
5 min	Learn about data visualisation
5 min	Discuss infographic examples
20 min	Create your own visualisations
10 min	Present your creation
5 min	What will we do next?
