Lesson Description

Learn how to tell a story with your data

Pupils will create a story that starts with their data problem, presents how they collected the data, shows the visualisations they made, and lets them talk about what their data show. They can then come up with ideas on what they would do with their data next, and what else they might like to investigate.

Materials needed:
Lesson Pack, pens, paper, computer

Lesson Plan

Time	Task
5 min	Recap your challenge so far
5 min	Learn about data storytelling
10 min	Plan your story
10 min	Tell your story
5 min	Talk about your classmates' stories
10 min	Talk about what to do with your data
5 min	That's a wrap!
